Software Installation

Thank you for choosing 3Mtm Pattern and Solutions Center as your automotive film pattern software.

If you are prompted to choose "SAVE" or "RUN," choose "SAVE" and choose a destination on your computer where you can easily locate the file after the download is complete.

Once your download finishes find the executable file (3MPatternAndSolutionsCenter.exe). Double click to run this file and begin the installation. Follow the on-screen prompts and refer to this guide if you need additional assistance.

File extraction will begin

Select Application Type 32 OR 64 bit and click Next (64 bit is most common)

Please read the following license agreement carefully. If you accept, click the button 'I accept the terms...' and select Next. You may print the license agreement if you wish before selecting Next.

You may change the default installation folder; however, this is NOT recommended by 3M[™]. Select Next

The Program Folder name also can be changed, but this is <u>NOT recommended</u>. Click Next.

<u>3M™ Recommends selecting Continue to automatically install fonts from your computer. Skipping this step may cause errors during pattern downloads.</u>

An Additional Font Installation pop up will open after installing the 3M[™] Fonts. If you want to install more fonts click Yes, if not click No. The most common selection is No.

Click OK to continue

On the next pop-up click OK again. It may take several minutes while it searches your computer for additional fonts. If the process freezes or you do not care about additional fonts from your computer, press the ESC key on your keyboard.

Click Finish to exit the installation wizard It is recommended that you restart your computer after installing new software

To open 3M[™] Pattern and Solutions Center, Click on the '3M Patterns' desktop shortcut. The application will launch your preferred web browser.
